[Ftp For Mac](#)

The screenshot displays the UltraFTP application window titled "UltraFTP - push to loc". The interface includes a top toolbar with various actions like "Configure accounts", "New session", "Disconnect", "Refresh", "Upload", "Download", "Set session options", "Rename", "Save", "Close", "Previous tab", "Next tab", "Open in UltraEdit", "Compare UltraFinder", "Extras", and "Check For Updates".

The main workspace is divided into several panes:

- Accounts & Sessions:** Shows a tree view of local and production environments.
- Local File System:** Displays the local drive structure, including folders like "System Volume Information", "temp", "Users", "Windows", "work", and "wordpress".
- Remote File System:** Shows the remote site structure, including folders like "v2-dev", "wordpress", "wp-admin", "wp-content", "wp-includes", "css", "images", "js", "pismo", and "SimplePie".
- File List:** A table listing files and folders with columns for Name, Size, Date, and Type.
- Transfer Log:** A list of transfer operations with progress bars and status indicators.

Name	Size	Date	Type
